

FERRUPS® FE Series 50Hz

Unrivalled reliability in configurable power protection for computers and telecommunications equipment.

Features

- ▶ Active Voltage Regulation converts power from almost any AC source into computer grade Power
- ▶ Eliminates harmful harmonic currents from entering a building's wiring, where they can disrupt computer operations
- ▶ Enhanced diagnostics initiates automatic startup and scheduled tests on the logic board, battery and other critical systems
- ▶ Provides regulated output voltage without drawing power from batteries keeping the batteries fully charged from unexpected blackouts
- ▶ Complete offering of power management software included to ensure data integrity

Warranty

- ▶ 2-Year Limited Warranty
- ▶ \$25,000 Load Protection Guarantee (U.S. and Canada)

Powerware FERRUPS® uninterruptible power systems furnish unmatched reliability in configurable power protection for computers and telecommunications equipment. Patented ferroresonant technology delivers "bulletproof" power protection, overcoming spikes, sags, surges, noise, and lightning. Powerware-exclusive SineSense™ provides clean, reliable power while conserving batteries during blackouts.

Extensive configurability and customization options make FERRUPS the ideal power protection solution with a wide range of voltages, frequencies, runtimes, power cords, and receptacles. FERRUPS prevents the back-feed of harmonic currents into building wiring which can disrupt computer operations.

Product Snapshot

Rating:	500 VA - 18kVA
Input Voltage:	220/230/240
Output Voltage:	220/230/240
Frequency:	50 Hz
Configuration:	Tower

Redundant power paths assure high fault-tolerance and optimum uptime. Galvanic isolation separates input from output, filtering line noise and surges. FERRUPS also features precision voltage regulation with no battery discharge down to 38% below nominal (depending upon load); and over 80 user-programmable diagnostic and communications functions.

FERRUPS has won Midrange Systems' "Buyer's Choice" award six of the last eight years. FERRUPS models include free Powerware Software Suite power management software with connectivity cable, and are BestLink™ SNMP/WEB-ready for remote management. FERRUPS covers up to US\$25,000 for damage to connected equipment resulting from a spike or surge (U.S. and Canada only).

FE Series, 50Hz Specifications

Output Connection (quantity)	4								Hardwired output is standard						
(type)	IEC-320 (10A) male connector								Contact Factory for receptacle options						
Typical Runtime: (Full Load)	9	14	11	18	14	11	9	14	10	20	12	11	18	10	
(minutes) (Half Load)	25	35	28	48	37	30	25	35	24	50	33	26	48	26	

Operation

Nominal Input Voltage	220/230/240													
Input Voltage Range	+15%, -20%													
Operating Frequency	50 Hz Nominal (adjustable limits \pm 0.01 Hz to \pm 3Hz)													
Nominal Output Voltage	220/230/240													
Output Voltage Regulation	\pm 3% for input voltages of +15% to -20%													
Output Voltage Waveform	Sine wave													
Output Voltage THD	5% or less at rated kW load													
Overload Capacity	150% surge and 125% for 10 min. on line, 150% surge and 110% for 10 minutes on inverter													
Transfer Time	0 ms													
Lightning, Surge & Noise Protection	2000:1 spike attenuation using ANSI/IEEE C62.41 and C62.45 Category A and Category B tests. Common Mode - >120 dB. Normal Mode - >60dB													
Efficiency	85	86	85	88	88	90	90	91	90	90	90	90	91	92
Safety Certification	UL 1778, CSA (cUL), GS (TUV), Complies with European Low Voltage Directive 73/23/EEC													
EMI Compliance	FCC Class A, Complies with European Electromagnetic Compatibility Directive 89/336/EEC													
Testing Standards	ANSI/EEE C62.41 (1980); ANSI/EEE C62.45 (1987); IEC 801-2, 801-4, 801-5 EN 50081-1, EN 500082-1, EN 500091-1, EN 500091-2, EN60950													
Communication	RS-232 serial port (DB-25), plus contact closures													

Environmental

Operating Temperature	0 to 40° C													
Storage Temperature	-20° C to +60° C													
Relative Humidity	0 to 95% without condensation													
Audible Noise at 1m	41	41	47	49	49	51	51	51	50	51	54	55	56	57
Altitude	3, 050m (10,000 ft.) maximum													

All specifications typical and are subject to change without notice.

Powerware offers a complete line of Uninterruptible Power Systems from 250VA to more than 4000kVA.

*120 V Standard Configuration

**Batteries in second cabinet. Contact factory for weights and dimensions.
